

## Environmental Policy

Micronet LTD implemented an Environmental Management System (EMS) which complies with the ISO14001 standard.

Micronet's Environmental policy is to incorporate environmental responsibility that protects our environment for us and for the next generation.

Our Environmental Management System runs through the whole organization structure. Every employee is committed and responsible to fulfill our goals that contribute to our environmental policy:

- a. Obey national and international environmental laws.
- b. Supervisor's obligation of Environmental Policy aspects management.
- c. Continuous Improvement of the environmental control process and procedures.
- d. Aspire to improve and reduce our environmental footprint created by our products and by our supply chain process.
- e. Maintain high awareness among Micronet employees and suppliers.
